To Dr Marchin:—I have ten years been troubled with Female complaints—prolapsus, Uteri, and all the attending difficulties—at times rendering my life most miserable. I have had the attendance of some of the best physicians, with but little success. The most that they could demand little success. The most that they could do was to relieve—a cure was out of the question. For to relieve—a cure was out of the question. For five months before commencing with your medicine, I had not been able to perform any labor, could walk but a few steps at a time and scarcely went out of doors—in short, I was completely prostrated both in body and mind. I expected to drag out the rest of my days in suffering and misery: but rending your adversisement, was induced to try your invaluable medicine, called 'Uterine Catholicon,' as the last resort. I had not used it a wask before I felt like another woman. By the use of three bottles, I was enabled to perform the use of three bottles, I was enabled to perform all the labor, for six in the family, with ease, and Our Tin Tin Shop is run by experienced workmen.
